

Minutes for the meeting (with TA) 2023-03-28

Location: Drebbelweg IZ 2
Date: 2023-03-28
Time: 16:45-17:30
Chair: Rebecca
Minute-taker: Jan
Attendees: Aldas Lenkšas, Aistė Macijauskaitė, Leonardo Marcuzzi, Jan Maris, Rebecca Andrei (Group 79)

Minutes

Agenda approved.

Announcements from TA:

- Next two weeks will have shorter meetings (25 min each). They will start earlier, at 3:15 instead of 4:45.
- Keep eyes out for “flag” emails. Whoever receives such email should reach out to TA and their team, so that the situation can be resolved.
- Self Reflection (Teamwork reflection) due this friday.

Heuristic Evaluation Feedback:

- Elaborate on “execution”. How did they evaluate it? In a group or alone? What happened during the evaluation? How many times did they go through the application?
- Relate problems found in evaluation to very specific UI elements.
- Elaborate in conclusion, a bit more detailed / less basic.
- Make general improvements based on rubric.
- Include screenshots instead of video. Screenshots within the report.

Other feedback / Questions:

- Make sure to follow the prioritization. Delete anything that is supposed to be implemented AFTER something we haven't implemented. IE: Do not implement tags before card details.
- Product pitch must be submitted on BRIGHTSPACE
- Add long polling in addition to websockets
- Adjust planning (which milestones will we complete?)
- Address “insufficient” on data transfer (has been address in the meeting, insufficient fixed)

Feedback:

- Slightly pick up the pace, address flagged teammates, and make sure to plan accordingly.

Action List

1. **Team reflection (Individual assignment)**

2. Address flags
3. Product Pitch
4. Finish all coding by end of week 8
